NFR1: On a scale of 1 to 5 (5 being the highest), do you think this digital approach is better/faster than the paper?

3 responses

Please explain your previous answer.

3 responses

Paper can be nice but this allows a way to store larger data in a more organized and complete way.

it decreases the chance to lose paper.

having a tool that tells me exactly what i need to check for heat that day is very nice

## Additional comments you would like add

1 response

She signing up the email that is sent does not create a hyperlink for registration confirmation, website also flags as unsecure, and when signing up having a confirm password line would be nice in case you make a mistake typing the password initially.
